Inflammation and Gout? Why suffer Syphilitic and Mercutial diseases to rot the bones in your body, or the flesh of your bones? Why let your sluggish blood drag and scatter its distresses throughout your veins? Avar's Cure, Extra! of Sarsaparilla cures these complaints, and cleans them out of the system. We will call the particular attention of every reader to the advertisement of M. L. M. — strengthening Cordial and Volcanic Oil Liniment—they are well known in this community to receive recommendations. But there are many of our readers who are suffering from a derangement of the digestive organs, without the slightest idea of the root cause, giving rise to symptoms such as debility, nervous uneasiness, feelings of indigestion, lack of energy, making existence a burden. To all who may be afflicted, try this Cordial; it will give immediate relief. To all who may be afflicted with the above-mentioned in a deterioration of the blood, (from the origin of the green), October 10, 1859.

I have derived so much personal benefit from the Peruvian Syrup, that I do not hesitate to recommend its use to all that large class of cases where from the efficient remedies for derangements, etc., and other occupations have failed to produce the desired energies, or to sufferers from the debilitating effects of summer heat. Believe this to be an invaluable remedial agent.

Brandreth's Pills.

Are growing more in favor with the public. It is now conceded they are the best purgatives you can get from the world of medicine. The time will surely arrive when they will supersede all other purgatives whatever. The ingredients of which they are composed can scarcely be obtained by druggists or makers of other pills. Dr. Brandreth has them grown and prepared without regard to the expense. And the care to make a popular purgative is appreciated as that said indicates. Other purgatives are dragging a meek existence. And yet they may have some merit. Dr. Brandreth's Pills are safe and sure—safe, because they operate slowly on impure humors. No valuable fluid is wasted, only effete or worn-out material, which when taken out of the body, leaves it stronger. They are pleasant as a truly effective medicine can be. To say that they will not sometimes give pain would be true, but the pain they give is only because they remove those crude and bad humors from the blood which are the occasion of disease. They open nature's avenues, and this cannot always be done painlessly.

Sold by J. H. CONINGHAM, Terre-Haute, and by all respectable dealers in medicines.—[anglophile]

CURE SO MANY DISEASES

APPARENTLY DISSIMILAR?

Whomsover the mind is taxed more than the body, the penalty is Dyspepsia, the most convenient name for a legion of complaints, beginning with impaired digestion, and generally ending in CONSUMPTION, and often resulting in a deterioration of the blood.
